Fees and charges in detail.

You'll find additional details on our fees and charges below. Fees regarding credit card and debit card transactions are calculated daily for each card type and each fee is rounded up to the nearest cent. All fees are billed as a single amount at the end of each statement cycle. A statement cycle refers to the time between one statement date and the next, which is a calendar month for merchant statements.

The fees and charges specified in your Fee Schedule will apply. These charges include a Goods & Services Tax (GST).

Remember, all merchant fees and charges are subject to GST.

How are fees calculated for Gross, Net or Volume?

Gross.

Gross means that a fee is charged on the value and/or the number of sales transactions. The value and/or the number of refund transactions are not included in the calculation. For example:

Card sales value		Card refunds value		Gross value		Merchant Service Fee rate		Merchant Service Fee charged
\$20,000	-	Not applicable	=	\$20,000	x	1.00%	=	\$200

Card sales volume		Card refunds volume		Gross volume		Merchant Service Fee rate		Merchant Service Fee charged
1,000	-	Not applicable	=	1,000	x	\$0.50	=	\$500

Net.

Net means that a fee is charged on the value and/or the number of sale transactions after subtracting the value and/or the number of refund transactions. For example:

Card sales value		Card refunds value		Gross value		Merchant Service Fee rate		Merchant Service Fee charged
\$20,000	-	\$5,000	=	\$15,000	x	1.00%	=	\$150

Card sales volume		Card refunds volume		Gross volume		Merchant Service Fee rate		Merchant Service Fee charged
1,000	-	200	=	800	x	\$0.50	=	\$400

Volume.

Volume means that a fee is charged on the number of sale transactions in addition to the number of refund transactions. For example:

Card sales value		Card refunds value		Total value		Merchant Service Fee rate		Merchant Service Fee charged
\$20,000	+	\$5,000	=	\$25,000	x	1.00%	=	\$250

Card sales volume		Card refunds volume		Gross volume		Merchant Service Fee rate		Merchant Service Fee charged
1,000	+	200	=	1,200	x	\$0.50	=	\$600
